# **Memorandum of Understanding of The Collaboration of Book Publications and Journal Publications STIE Jaya Negara Tamansiswa Malang, Triple Nine Communication and PT.Frost Yuniior**

No. 08/D.1/STIE-JNTs/III/2021

## **1. The Collaboration Objectives:**

Build an international publishing ecosystem by following the quality standards of international publishing.

## **2. Background**

Publishing scientific books and journals is an academic product that is produced through a scientific process in a university. Creating academic products in the form of books and scientific journals requires cooperation between universities and publishing companies and distributors of scientific publishers throughout the world.

For this reason, this collaboration needs to be realized, namely the coordination between STIE Jaya Negara Taman Malang students as a university that is active in publishing and scientific research. Of course, STIE Jaya Negara Tamansiswa Malang has academic products in the form of books and journals that can be published by domestic publishers, namely PT. Frost Yuniior, which has the role of managing domestic publishing and legal publishing in the territory of the Republic of Indonesia including ISSN management, ISBN and IKAPI membership registration on behalf of PT.Frost Junior. The role of PT. Frost Junior certainly needs support from publishers abroad that have global access and networks, namely Triple Nine Communication. Triple Nine Communication has a role to distribute books and journals which are academic products of STIE Jaya Negara Tamansiswa Malang throughout the world.

## **3. Role of the Parties**
